PROFILE

I am a PhD student in the Division for Cognitive Semiotics at Lund University. In my research I use my analytical expertise and inter-crossdisciplinary background to study Greek street art as a visually perceived (un) sanctioned and typically polysemiotic cross-cultural medium addressing socio-political issues.

I am familiar with, and experienced in the challenges of conducting research, from funding bids preparation and designing research to data collection and analysis, and disseminating research, social (media) networking and facilitating knowledge exchange. <https://journals.lub.lu.se/pjos/index>
